- Metal stand
- USB Cable
- User guide
- Gaming sticker

System requirements

- PC or laptop with USB port
- Windows 7, 8, 10 or Mac OS X 10.5 (Leopard) or higher
- Or
- PS4™

Take Your Streaming to the Next Level

If you're looking for a microphone that's adept at games streaming and recording in the highest quality, meet the Trust GXT 256 Exxo USB Streaming Microphone. Featuring excellent audio quality whilst being extremely easy to use, this mic is set to take your recording to the next level.

Excellent Audio Highlighted

The Trust GXT 256 Exxo USB Streaming Microphone combines audio excellence with style. It's built to deliver crystal clear and rich recordings of a near-professional studio quality. Coming in a good-looking design with LED lighting in different colour settings, you can highlight your quality recordings in style.

High-Precision Cardioid Recording

The Exxo is especially designed for voice recording. The cardioid recording pattern ensures that you get high-quality recordings by isolating your voice, thereby minimising background noise. Perfect for extremely clear, precise and warm audio during your gaming broadcast, but also ideal for podcasting, vlogging and recording voice-overs or acoustic instruments.

Heavy Metal and Shock-Proof Design

Built for stable recordings, the Exxo comes in a durable metal design. You can easily adjust the microphone's angle to the ideal recording position to capture audio perfectly. Its high-end shock mount neutralises surface tremors to help avoid trembles in your recordings – even if you jump up in the heat of battle. Furthermore, its metal weighted stand guarantees optimal stability, or you can attach the mic to any compatible microphone arm, using the universal 5/8" screw mount.

Easy Setup and Use

Amazingly easy to use, the Exxo comes with a plug-and-play USB connection to instantly connect to your PC or laptop, so you can start recording straight away. And thanks to the 1.8m USB cable (detachable), you can place the microphone anywhere on your desk.

Extra Pro Features

To perfect your recordings, you can listen to them in real-time, with the Exxo's zero-latency headphone monitoring port. Furthermore, you can regulate your settings with convenient microphone gain, mute and headphone volume knobs on the front of the microphone. And the pop filter filters out plosives and fricatives (unwanted sounds from letters like P and F) for even smoother recordings.

GENERAL

Application	Desktop, Home, Indoor	Height of main product (in mm)	187 mm
Width of main product (in mm)	56 mm	Depth of main product (in mm)	51 mm
Total weight	1757 g	Weight of main unit	398 g

CONNECTIVITY

Connection type	Wired	Connector type	USB
Cable length main cable	180 cm		

MICROPHONE

Sensor type microphone	Condenser	Pick-up pattern	Cardioid
Sampling rate	16bit, 48kHz	Signal-to-noise ratio	86 dB
Noise reduction	True	Echo cancellation	False

MOUNT

Type of anti-vibration measures	Pop filter, shock mount	Type of stand	Metal desk stand
--	-------------------------	----------------------	------------------

AUDIO

Frequency response	30 - 18000 Hz
---------------------------	---------------

HEADPHONE

Impedance	32 Ohm	Sensitivity	130 dB
Sound pressure level	130 dB		

CONTROL

Controls	Light color mode, master volume, microphone mute, volume control
-----------------	--

COMPATIBILITY

Compatible Device Types	Gaming console, laptop, pc	Compatible Consoles	PS4, PS4 Original, PS4 Pro, PS4 Slim
