Compact Gaming Microphone

Let yourself be heard – whether it's by your followers or your teammates. The Zabi LED-Illuminated USB Gaming Microphone is a handy desk microphone that captures and streams you at your best. Small in size but big in functionality and style, this microphone is fitted with a few convenient design details. It makes recording, streaming or voice chatting a breeze.

Easy Talking

Record new content, direct your team mates whilst gaming, or host an online meeting; you can use the Zabi for all your streaming, gaming and recording needs. If you find that your hands do a lot of the talking, the non-slip LED-illuminated base provides great stability and the mute button is easily accessible if you don't want to be heard for a while.

Smart Features

The Zabi's got all the features you'd want from a desk mic, which makes it so super smooth to operate. Its flexible neck can be moved into any position so that you can comfortably settle down for a chat wherever you like. What's more, it comes with a 1.4m USB cable, so you can set it up in any corner of your desk. The LED light on the button indicates when you can be heard; it comes on when the microphone is active and turns off when you are muted.
